

By People for People: Montaplast

Montaplast would not exist without the knowledge and expertise of our employees. They are our true capital - and that is why we invest in them.

It is said that Montaplast always succeeds - even when taking on seemingly impossible challenges. This is due to our employees. Montaplast offers a wide range of working possibilities in Morsbach (Germany), Frankfort (KY, USA), Detroit (MI, USA), or in one of our worldwide engineering and sales offices.

Obviously, without insisting on financial discipline, reliable IT, and state-of-the-art equipment, we would not have come this far - but we know that it's the people who really make the difference here at Montaplast.
